PREAMBLE

This syllabus is one of a series prepared for use in secondary schools by the Curriculum Development Council, Hong Kong. The Curriculum Development Council, together with its coordinating committees and subject committees, is widely representative of the local educational community, membership including heads of schools and practicing teachers from government and non-government schools, lecturers from tertiary institutions and colleges of education, officers of the Hong Kong Examinations Authority, as well as those of the Curriculum Development Institute, the Advisory Inspectorate and other divisions of the Education Department. The membership of the Council also includes parents and employers.

All syllabuses prepared by the Curriculum Development Council for the sixth form will lead to appropriate Advanced and/or Advanced Supplementary level examinations provided by the Hong Kong Examinations Authority.

This syllabus is recommended for use in Secondary 6 and 7 by the Education Department. Once the syllabus has been implemented, progress will be monitored by the Advisory Inspectorate and the Curriculum Development Institute of the Education Department. This will enable the Applied Mathematics Subject Committee (Sixth Form) of the Curriculum Development Council to review the syllabus from time to time in the light of classroom experiences.

All comments and suggestions on the syllabus may be sent to:

Principal Curriculum Planning Officer (Sixth Form),
Curriculum Development Institute,
Education Department,
