

LEGISLATIVE COUNCIL BRIEF

POST SECONDARY COLLEGES (AMENDMENT) BILL 2025

INTRODUCTION

At the meeting of the Executive Council on 11 February 2025, the Council ADVISED and the Chief Executive ORDERED that the Post Secondary Colleges (Amendment) Bill 2025 (the Bill), at Annex A, should be introduced into the Legislative Council (LegCo).

A

JUSTIFICATIONS

Objectives

2. Education is the key to nurturing talent and building a strong nation. The Chief Executive's 2023 Policy Address (PA) promulgated the strategic goal of developing Hong Kong into an international post-secondary education hub and a cradle for future talent, with a view to injecting vibrancy and growth impetus into our economy, enhancing Hong Kong's status as an international city, and contributing towards the development of a leading country in education. The 2024 PA reaffirmed this goal and outlined the aspiration to build Hong Kong into an international hub for high-calibre talent through the integrated development of education, technology and talent.

3. The self-financing post-secondary education sector forms an integral part of the post-secondary education system in Hong Kong. It has all along been the Government's policy to support the parallel development of the self-financing and publicly-funded sectors. Self-financing institutions enjoy greater flexibility in programme development to respond to the ever-evolving manpower needs of different

sectors of society and provide diversified articulation pathways, particularly in respect of vocational and professional education and training. In this connection, the self-financing sector has demonstrated potential to play a more important role as Hong Kong develops into an international post-secondary education hub.

4. This notwithstanding, the Post Secondary Colleges Ordinance (Cap. 320) (the Ordinance), enacted in 1960 without any major review since then, is inadequate to support the healthy and vibrant development of the self-financing sector. We therefore propose amending the Ordinance to **reform the regulatory regime** of post secondary colleges (Colleges) to **enhance governance, accountability and transparency**. Moreover, we propose rationalising the arrangements for registration or deregistration of Colleges and awarding of degrees, so as to provide for an **efficient and effective mechanism to uphold the quality of self-financing post-secondary education**.

5. In addition to the proposed amendments to the Ordinance, we also propose consequential amendments to the Education Ordinance (Cap. 279) and support measures to provide for a unified regulatory framework for all institutions operating local self-financing post-secondary education programmes at the degree and sub-degree levels, with a view to **promoting coherence in quality assurance, governance, positioning and overall co-ordination**.

Key Proposals

(a) Governance Structure

6. We propose to streamline the requirement on the governance structure of Colleges from four-tier to two-tier, comprising a Board of Governors (BoG) as the supreme governing body and an Academic Board regulating academic affairs.

7. We also propose to rationalise the requirement for the Permanent Secretary for Education (PSED) to keep four registers under section 3 of the Ordinance such that PSED should keep the registers of

registered Colleges, members of BoGs, teachers, and additionally Presidents and Vice-Presidents.

(b) Registration

8. To uphold a stringent gatekeeping mechanism, we propose to amend section 4 of the Ordinance to introduce new and enhance specified requirements for registration of Colleges as highlighted below–

- (a) the organisational and staffing structure and the constitution of Colleges are conducive to ensuring satisfactory academic and general standards and conduct, as well as **efficient and effective governance and management**;
- (b) Colleges have in place an open, fair and transparent set of policy and procedures for ensuring that –
 - (i) the **staff** recruited and appointed are **fit and proper**; and
 - (ii) the students admitted are qualified;
- (c) the number of students being admitted is sufficient to provide a **meaningful learning environment and experience** for achieving the learning objectives and outcomes and implementing Colleges' strategic plans;
- (d) Colleges should provide **a suitable environment conducive to teaching and learning**;
- (e) Colleges should ensure that their operations **comply in all respects with any law**;
- (f) both the **finances** and **sustainability** of Colleges should be considered;
- (g) Colleges should attain and maintain an **institutional review status** from the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ), to demonstrate their competence to operate programmes at the sub-degree and/or degree level(s);
- (h) the **development** and **institutional capabilities** of Colleges should be consistent with their strategic plans; and

- (i) the **academic standards** of Colleges should be satisfactory.

9. At present, the approving authority for the registration of Colleges, and the majority of the statutory powers under the Ordinance and Cap. 279, are exercised by PSED. It is proposed that the more important powers under the Ordinance relating to the **registration and deregistration of Colleges be vested with the Secretary for Education (SED)**, with a view to strengthening the Education Bureau (EDB)'s regulatory oversight. PSED will continue to exercise other statutory powers of an operational nature.

(c) ***Cancellation of Registration***

10. We propose to introduce a fair and transparent mechanism for cancelling the registration of underperforming Colleges –

- (a) where not satisfied in respect of any of the specified requirements for registration due to any circumstance (detailed in paragraph 8 above), SED may issue a notice to the Chairperson of BoG of the College, requesting the College to provide explanations and rectify the circumstance, and/or imposing conditions and/or restrictions; and
- (b) if the College cannot provide explanations and rectify the circumstance to the satisfaction of SED within the specified compliance period, or fails to comply with the imposed conditions and/or restrictions, SED may extend the compliance period, impose further conditions and/or restrictions, and/or cancel its registration.

11. When a College is deregistered, it is proposed that PSED should have the power to impose requirements on its BoG to ensure a smooth teach-out in the public interest and best interests of affected students.

12. We propose that, if PSED is of the opinion that a registered person is not a fit and proper person to act in the respective capacities due to any circumstance, PSED should be empowered to impose conditions and/or restrictions on, and to suspend an individual's registration, taking into account the nature and gravity of the actual circumstance, in addition

to the existing power of deregistration. The procedures largely resemble those applicable to Colleges. EDB will also promulgate administrative guidelines on the “fit and proper” criterion for the effective implementation of the relevant mechanism.

13. We propose that the appeal mechanism in relation to registration matters remain unchanged, i.e. the appellant may appeal by way of petition to the Chief Executive-in-Council (CE-in-C). CE-in-C will continue to exercise independent judgement and uphold openness, fairness and impartiality in deciding the appeal. On the other hand, the appellant will be informed of the reasons for any adverse decisions and the right to appeal as well as be given the opportunity to give written representations.

(d) Approval of Names of Colleges and Awards of Degrees

14. It is proposed that CE-in-C retain the power to approve the registration of Colleges with a name that contains the English word “University” or the Chinese characters “大學”. Other registrations can be approved by SED.

15. We also propose to **delegate the approving authority for a College to award degrees from CE-in-C to SED**, given EDB’s role to foster strategic co-ordination in the self-financing sector and the fact that all new degree programmes must first go through the established quality assurance mechanism. SED may reject such applications having regard to manpower needs, sustainability, the strategic plan and track record of the College, or any other relevant factors. Colleges may appeal to the Chief Secretary for Administration against SED’s decision. This mechanism will also apply to honorary degrees. It is envisaged that this streamlined mechanism will elevate the flexibility of Colleges to swiftly develop programmes in response to evolving market needs whilst ensuring quality.

(e) Premises

16. To ensure that Colleges’ premises are used in a safe, legal and compliant manner, it is proposed to amend regulation 3 of the Post

Secondary Colleges Regulations (Cap. 320A) to specify that BoGs of Colleges should, at all times, **ensure that the premises are used and maintained in compliance in all respects with any law** to the satisfaction of PSED. Otherwise, PSED may, by notice to the Chairperson of BoG, suspend the operation of the premises or make necessary directions and/or requirements.

(f) Accountability and Transparency

17. To enhance transparency, it is proposed to require Colleges to submit and publish extracts of their strategic plans and annual reports from time to time. In order to strike a balance between the policy objectives and the sensitivity of financial information, it is proposed to only require Colleges to make available to the public key financial information, such as aggregate amounts instead of detailed breakdowns.

(g) Offences

18. The non-compliance with any provisions of the Ordinance will normally trigger the deregistration mechanism as outlined in paragraphs 10 to 12 above. For cases involving individuals or institutions not registered under the Ordinance, we propose that the following persons will be guilty of an offence (with proposed penalty levels drawn up with reference to those under the relevant ordinances) –

- (a) a person who provides false or misleading information in, or in relation to, an application for registration or a suspension or cancellation of registration (a fine of \$250,000 and imprisonment for 2 years);
- (b) a person who acts as a member of BoG, President, Vice-President or teacher of a registered College if the person is not registered or the person's registration is suspended or cancelled (a fine of \$250,000 (for member of BoG), a fine at

level 6 (for President or Vice-President), or a fine at level 5 (for teacher) and imprisonment for 2 years (for all))¹; and

- (c) a member of BoG which does not comply with the requirements imposed by PSED for the teach-out arrangement (a fine of \$250,000 and imprisonment for 2 years).

(h) Amendments to Other Requirements

19. It is proposed to remove the following obsolete requirements, with a view to rationalising the academic development and administrative work of Colleges –

- (a) the requirement for evening colleges to be registered separately;
- (b) the requirement of seeking PSED’s approval for establishing institutes or departments of research or special studies; and
- (c) the requirements on the minimum length of courses, age limit and academic requirements for student admission, conduct of examinations, health measures, experiments and equipment.

Unified Regulatory Framework

20. At present, some institutions offering local self-financing post-secondary education programmes are not registered under the Ordinance. They include registered schools under Cap. 279 operating sub-degree programmes (but not degree programmes)²; and self-financing

¹ According to Schedule 8 “Level of Fines for Offences” under the Criminal Procedure Ordinance (Cap. 221), the fines at Level 5 and Level 6 currently in effect are \$50,000 and \$100,000 respectively. The offence provision does not prohibit a person from acting as a member of BoG, President, Vice-President or teacher of a registered College if, within the six months immediately before the person so acts, an application has been made for registration and the application has not yet been decided by PSED.

² There are currently seven registered schools under Cap. 279 operating sub-degree programmes, namely Caritas Bianchi College of Careers, Caritas Institute of Community Education, Hong Kong Adventist College, Hong Kong College of Technology, Hong Kong Institute of Technology, HKU SPACE Po Leung Kuk Stanley Ho Community College, and YMCA College of Careers.

arms of publicly-funded institutions³ established under their respective enabling ordinances.

21. Since Cap. 279 is primarily designed to regulate primary and secondary education, it cannot provide a fit-for-purpose regulatory framework for the operation of post-secondary education. As regards the self-financing arms of publicly-funded institutions, there is also room for improvement in their operation of self-financing sub-degree and/or degree programmes, given that they often have their own governance bodies with only indirect oversight by the governing bodies of the institutions proper; their self-financing programmes are also not subject to the same planning and approval mechanism as applicable to the publicly-funded programmes, to ensure alignment with market needs and Government policies.

22. In this connection, it is proposed to provide for a **unified regulatory framework for all institutions operating local self-financing sub-degree and degree programmes**, with a view to promoting coherence in quality assurance, governance, positioning and overall co-ordination of the self-financing sector. In practice, a two-pronged approach is proposed to implement the regulatory framework. Firstly, consequential amendments will be made to Cap. 279 such that schools registered thereunder will not be able to continue operating sub-degree programmes without a registration under the amended Ordinance. Secondly, EDB will adopt administrative measures to support the self-financing arms of publicly-funded institutions to register under the amended Ordinance, including reviewing the scope and eligibility of the package of support measures (detailed at **Annex B**) and implementing appropriate facilitation arrangements (detailed at **Annex C**)⁴.

B

C

³ The self-financing arms of five University Grants Committee-funded universities and the Vocational Training Council currently offer local self-financing sub-degree and/or degree programmes.

⁴ It is our policy intention that a limited number of self-financing sub-degree and undergraduate programmes may still be offered by the publicly-funded institutions proper for justifiable strategic reasons as an exception. The current practice of publicly-funded institutions proper offering self-financing postgraduate programmes will also not be affected.

23. We note that publicly-funded institutions generally appreciate our policy intention and do not raise any in-principle objection. In particular, the larger-scale self-financing arms have indicated their intention to register under the amended Ordinance, while the smaller-scale ones intend to consolidate their operation under their respective institutions proper. EDB and HKCAAVQ would continue to maintain close liaison with relevant institutions to facilitate their migration.

Commencement and Transitional Arrangements

24. The amended Ordinance will come into operation on a date to be appointed by SED. It is our current plan to allow the currently registered Colleges sufficient time to adapt to the new requirements by setting the commencement date to be around one year after the passage of the Bill, which will also be aligned with the commencement of an academic year.

25. In addition, the Bill will provide for a transitional period of two years beginning on the commencement date (i.e. a total of around three years after its passage) for the institutions currently not registered thereunder to complete the registration procedures. During this period, these institutions may continue operating self-financing post-secondary programmes under their prevailing legal frameworks.

THE BILL

26. The major provisions are set out below –

- (a) **Clause 7** amends section 3 of the Ordinance to provide that PESD must keep a register of registered Colleges, a register of members of BoGs of registered Colleges, a register of Presidents and Vice-Presidents of registered Colleges and a register of teachers of registered Colleges;
- (b) **Clause 8** amends section 4 of the Ordinance to revise certain eligibility requirements, and add new eligibility requirements,

for the registration of a College and for a registered College to remain on the register. It also changes the authority who decides on the eligibility from PSED to SED;

- (m) **Clause 24** amends regulation 3 of Cap. 320A to adjust the requirements for the premises of registered Colleges. It, among other things, empowers PSED to take certain measures if PSED is not satisfied as to the compliance with the requirements of a registered College;
- (n) **Clauses 25 and 27** repeal regulations 4, 5, 6 and 8 of Cap. 320A, which concern certain requirements that are now obsolete;

BACKGROUND

32. The Ordinance was first enacted in 1960 to govern the registration and regulation of Colleges. At present, 11 degree-awarding institutions, including three private universities, are registered under the

Ordinance⁵, with a total student enrolment of around 21 100 in the 2023/24 academic year. The only major amendment to the Ordinance took place in 2001 to allow Colleges to award degrees with the prior approval of CE-in-C.

33. Since the announcement in the 2000 PA to increase the post-secondary education participation rate to 60% within ten years, the self-financing sector has developed rapidly. The current post-secondary education participation rate has exceeded 80% (with over 55% at the degree level). At the same time, the significant expansion of the self-financing sector has brought about concerns regarding the sustainability and quality of some self-financing institutions in relation to student enrolment and public recognition. Against this background, the Government established the Task Force on Review of Self-financing Post-secondary Education (Task Force) in October 2017 and the Task Force submitted its review report in December 2018, reaffirming the Government's parallel development policy and making a number of recommendations, including the review of the Ordinance.

**Government Support Measures for
Self-Financing Post-Secondary Institutions under the
Unified Regulatory Framework of the
Revamped Post Secondary Colleges Ordinance (Cap. 320)**

For institutions

- (a) **Land Grant Scheme (LGS)** – LGS provides land sites at nominal premium or vacant government premises at nominal rent to self-financing non-profit-making post-secondary institutions. Since the launch of LGS in 2002, 11 land sites and eight vacant government premises have been granted to eligible institutions;
- (b) **Start-up Loan Scheme (SLS)** – SLS provides interest-free loans to self-financing non-profit-making post-secondary institutions to develop campuses, re-provision existing campuses operating in sub-optimal environment, and enhance teaching and learning facilities. Since the launch of SLS in 2001, of the total loan commitment of \$9 billion, 40 loans amounting to about \$7.7 billion have been approved for 18 institutions. In addition, the ambit of SLS has been expanded from 2012 to support the development of student hostels;
- (c) **Quality Enhancement Support Scheme (QESS)** under the Self-financing Post-secondary Education Fund (SPEF) – Since its establishment in 2011, SPEF has received a total Government injection of \$3.52 billion. Investment returns of SPEF are used to, among others, support worthwhile non-works projects under QESS to enhance the quality of self-financing post-secondary education. To date, over 120 projects have been approved;
- (d) **Matching Grant Scheme (MGS)** – Self-financing degree-awarding institutions were invited to participate in a few rounds of MGS launched by the Government to help higher education institutions diversify their funding sources, by providing public funds to match private donations secured by the institutions subject to specified

criteria. The seventh MGS ended in July 2019, with nearly \$500 million matching grants provided to independent local self-financing degree-awarding institutions;

- (e) **Research Endowment Fund (REF)** – The Government has injected a total of \$46 billion into REF. Part of the investment income of the Fund is used to support the self-financing degree sector on a competitive basis to enhance academic and research development. The total funding awarded for the self-financing sector is about \$752 million;
- (f) **Enhancement and Start-up Grant Scheme for Self-financing Post-secondary Education (ESGS)** – The \$1.26 billion ESGS was launched in 2020 to provide financial support for self-financing post-secondary institutions to develop and enhance programmes that meet market needs but require high start-up costs. Independent non-profit-making education institutions offering full-time locally-accredited local self-financing sub-degree or undergraduate (including top-up degree) programmes are eligible to apply for funding, subject to a cap of \$42 million. In the first four rounds of applications, 15 applications with a total commitment of \$405 million were approved; and
- (g) **Pilot Project on the Development of Applied Degree Programmes (Pilot Project)** – To strengthen the vocational and professional education and training progression pathway at degree level, the Government launched the Pilot Project in 2020, under which the Government provides an one-off grant of up to \$2 million on a reimbursement basis to each selected self-financing post-secondary institution to develop an applied degree programme with strong industry and applied elements in a discipline with keen manpower demand. Eight applied degree programmes were selected in the two rounds of the Pilot Project, commencing in the 2022/23 and 2024/25 academic years respectively. Taking into the experience of the Pilot Project, the Guidelines on Developing Applied Degree Programmes have been promulgated the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ), with a view to supporting the development of more applied degree programmes.

For students

- (h) **Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)** – SSSDP currently subsidises about 4 000 undergraduate students and another 2 000 sub-degree students per cohort to pursue designated full-time locally-accredited self-financing undergraduate (including top-up degree) and sub-degree programmes in selected disciplines to nurture talent for industries with keen human resource demand. For the 2025/26 academic year, each student can receive up to about \$81,450 and \$40,730 (for laboratory-based undergraduate and sub-degree programmes respectively) or \$46,780 and \$23,390 (for other undergraduate and sub-degree programmes respectively) each year as tuition fee subsidy. With effect from the 2024/25 academic year, an additional annual subsidy is provided to students enrolling in designated programmes under SSSDP that are recognised applied degree programmes developed in accordance with the relevant guidelines by HKCAAVQ, with total annual subsidy amounts of up to \$87,770 (for laboratory-based programmes) and \$50,810 (for non-laboratory-based programmes). The number of subsidised sub-degree and undergraduate places will be further increased in phases by 1 000 each to support the migration of the self-financing arms of University Grants Committee (UGC)-funded universities to the unified regulatory framework, subject to the progress of the review of the Post Secondary Colleges Ordinances (Cap. 320) (the Ordinance);
- (i) **Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS)** – NMTSS provides non-means-tested annual subsidy to eligible students to pursue full-time locally-accredited local and non-local self-financing undergraduate (including top-up degree) programmes in Hong Kong offered by eligible institutions (save for those enrolling in subsidised places under SSSDP). For the 2025/26 academic year, the subsidy is up to \$35,120. The number of students receiving subsidies in the 2024/25 academic year is around 12 750; and

- (j) **Self-financing Post-secondary Scholarship Scheme (SPSS)** under SPEF – SPSS provides scholarships and awards to outstanding students pursuing full-time locally-accredited self-financing sub-degree or undergraduate programmes. To date, over 51 000 students have been granted awards / scholarships.

Other Support Measures

The self-financing post-secondary education sector is also eligible for other support measures, which are primarily intended for supporting other policy merits, such as promoting the Hong Kong Qualifications Framework (QF) and supporting needy students –

- (k) **QF Fund** – The QF Fund, with a total injection of \$2.2 billion, supports the development of QF by assisting providers (including self-financing post-secondary institutions) in seeking accreditation of their programmes and supporting various schemes, studies, projects and public education; and
- (l) **Student Finance** – The Working Family and Student Financial Assistance Agency provides both means-tested and non-means-tested financial assistance to students in the self-financing post-secondary education sector. For instance, the Financial Assistance Scheme for Post-secondary Students provides full-time students pursuing locally-accredited self-financing post-secondary education programmes with means-tested grant and non-means-tested low-interest loans, at a level comparable to their counterparts in the publicly-funded programmes.

Eligibility and Scope

The abovementioned support measures are primarily considered on a merit-basis and their eligibility varies having regard to the policy objectives, status of institutions and level of programmes being offered, etc. In principle, all post secondary colleges offering locally-accredited degree programmes registered under the Ordinance and the Hong Kong Metropolitan University (HKMU) are eligible for all the above schemes.

On the other hand, the Vocational Training Council's self-financing Technological and Higher Education Institute of Hong Kong is eligible for all except (f), while the self-financing arms of the UGC-funded universities are eligible for (a), (b), (c), (e)¹, (j), (k) and (l) only. Upon the commencement of the amended Ordinance, it is our intention that institutions operating self-financing post-secondary education programmes that do not register under the amended Ordinance will not be eligible for (a) to (j), with the exception of HKMU which is deemed to be under the unified regulatory framework in a broader sense. All post-secondary programme providers will continue to be eligible for other support measures in (k) and (l).

¹ Only applicable to self-financing arms that are degree-awarding.

**Facilitation Arrangements for the Migration of
Self-Financing Arms of the Publicly-Funded Institutions under the
Unified Regulatory Framework of the Revamped
Post Secondary Colleges Ordinance (Cap. 320)**

Accreditation

All self-financing arms of University Grants Committee (UGC)-funded universities, but not the Vocational Training Council, are currently leveraging the self-accrediting status of their respective universities proper in offering their self-financing programmes. The Education Bureau (EDB) and the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) will **give due recognition to their track records** in the relevant accreditation process under the amended Post Secondary Colleges Ordinance (Cap. 320) (the Ordinance) where appropriate –

- (a) at the institutional level, HKCAAVQ may, having considered the institutions' maturity and quality assurance track records, consider **providing certain facilitations when conducting the institutional review (IR)** for registration under the Ordinance, in accordance with its established facilitation practice on a case-by-case basis. For instance, a paper-based review may be adopted to streamline the accreditation procedures;
- (b) at the programme level, HKCAAVQ may, having regard to the institutions' operational track records, examine whether they possess the required maturity and capabilities to apply for a **Programme Area Accreditation (PAA) status** in certain programme area(s). Upon obtaining a PAA status, an institution may develop and operate learning programme(s) within an approved programme area at the approved Qualifications Framework level or lower levels without going through individual learning programme accreditation by HKCAAVQ; and

- (c) The IR and PAA status granted will be subject to HKCAAVQ’s periodic review, normally at a five-yearly interval.

Future Linkage with the Respective Institutions Proper

2. The amended Ordinance **will not regulate the linkage between the self-financing arms and their respective publicly-funded institutions proper**. The detailed arrangements should be left to the publicly-funded institutions proper to determine, including the naming and branding of the self-financing arms, sharing of campus facilities at a cost, appointment of members of the institutions proper to the governing bodies of the respective colleges, etc., subject to the relevant requirements under UGC and the amended Ordinance. These include UGC’s principle of “no cross-subsidisation” and HKCAAVQ’s IR. For the avoidance of doubt, the amended Ordinance will provide sufficient flexibility for the publicly-funded institutions proper to continue to own and serve as the sponsoring body of the self-financing entities and oversee their strategic development and operation as they see fit.

Transitional Period

3. To ensure a smooth transition, the amended Ordinance is proposed to commence operation about one year after the passage of the Post Secondary Colleges (Amendment) Bill 2025 (the Bill) by the Legislative Council, which will also be aligned with the commencement of an academic year to facilitate planning and implementation by institutions concerned. In addition, the amended Ordinance will provide for a transitional period of two years after the commencement date. In other words, there will be **a total transitional period of around three years after the passage of the Bill** for the self-financing arms to complete the requisite registration procedures. During the transitional period, those institutions not yet registered under the amended Ordinance may continue operating post-secondary programmes as they are, without being subject to the requirements under the amended Ordinance. They will be required to comply with the requirements under the amended Ordinance in full once their registration is completed.

4. **To facilitate the process, HKCAAVQ will work closely with the relevant institutions and provide assistance as appropriate,** including commencing early discussions with the institutions, issuing an alignment note on the expected standards and relevant requirements, providing customisation of the relevant accreditation process where applicable, and adopting a “fitness for purpose” principle in conducting the assessment.

Operation of Self-financing Programmes by the Institutions Proper

5. It is our policy intention that only the self-financing arms established outside the publicly-funded institutions proper be required to register under the Ordinance, while **a limited number of self-financing sub-degree and undergraduate programmes may still be offered by the publicly-funded institutions proper, provided that there are justifiable strategic reasons to do so on an exceptional basis,** and continue to be subject to the existing jurisdiction of the relevant enabling ordinances.

6. In addition, UGC-funded universities proper also offer a sizeable number of self-financing postgraduate programmes. As the operation of these postgraduate programmes are considered to be within the proper functions of UGC-funded universities, they will not be regulated under the amended Ordinance.

To provide for the registration and control of certain Post Secondary Colleges and their consequent exemption from the provisions of the Education Ordinance (Cap. 279) and for other matters connected therewith.

Implications of the Proposal

Economic Implications

The proposal aims to improve the regulatory and quality assurance mechanisms of self-financing post-secondary institutions, with a view to supporting the healthy and sustainable development of the self-financing post-secondary education sector. A sound self-financing sector is conducive to nurturing talent, thus benefitting the Hong Kong economy in the longer term.

Financial Implications

2. The Post Secondary Colleges (Amendment) Bill 2025 itself has no financial implications. That said, upon migration to the unified regulatory framework under the legislative amendments, the self-financing arms of University Grants Committee (UGC)-funded universities will become eligible for the Study Subsidy Scheme for Designated Professions / Sectors (SSSDP) and the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS), and therefore there would be an increase in the expenditure of both subsidy schemes. As far as SSSDP is concerned, as announced in the Chief Executive's 2022 Policy Address, the number of subsidised sub-degree and undergraduate programme places under SSSDP will be increased in phases by 1 000 each, which is intended to accommodate cover the programmes in relevant disciplines offered by the self-financing arms of UGC-funded universities so as to encourage their migration to the unified regulatory framework. For NMTSS, the locally-accredited self-financing undergraduate programmes of the self-financing arms will also become eligible for NMTSS after their migration. It is estimated that the expanded coverage of SSSDP and NMTSS following the migration of the self-financing arms will incur additional expenditure of \$327.42 million (full-year effect from 2028-29 onwards based on 2024-25 prices) and \$103.17 million (full-year effect from 2026-27 onwards based on 2024-25 prices) respectively. The

Education Bureau will meet the additional funding requirements with its existing resources.

Sustainability Implications

3. The proposal is conducive to the sustainable development of the self-financing post-secondary education sector. It will help promote the efficient use of education resources and enhance the quality and competitiveness of our population.
