#### 7. The Context

- The information on possible further study and career pathways is provided to enhance students' understanding of the wider context of the specific Applied Learning course.
- The recognition of Applied Learning courses for admission to further studies and career opportunities is at the discretion of relevant institutions. Students who have successfully completed Applied Learning courses have to meet other entry requirements as specified by the institutions.

#### Possible further study and career pathways

#### Further studies

• e.g. courses related to communication, media and cultural studies, advertising, public relations, journalism, visual communication

#### Career development

• e.g. brand assistant, advertising assistant, public relations assistant, media relations assistant, online communication assistant, digital media content editor's assistant

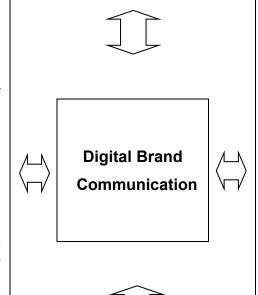

# Complementarity with core subjects and other elective subjects

#### Enhancing and enriching, e.g.

enhancing students' communication and writing skills of Chinese Language/English Language through writing blogs/posts, advertorials, stories and livestreaming/podcasting scripts

## Expanding horizons, e.g.

 students taking Geography, History, Physics, Chemistry and/or Biology may broaden their horizons by understanding the impact of digital media on communication

### Relations with other areas of studies/ courses of Applied Learning

e.g.

#### **Creative Studies**

 aesthetic sense and creative thinking enriches the design and production of digital media contents

#### Business, Management and Law

- concept of business management to be applied for organising digital brand communication projects
- awareness of copyright and intellectual property regulations enhances students' understanding of professional ethics involved in digital brand communication

### Foundation knowledge developed in junior secondary education

The course is built upon the foundation knowledge students acquired in, e.g.

- Chinese Language Education or English Language Education verbal and written communication skills
- **Technology Education** software application, information searching, processing, editing and transforming
- Arts Education lines, space, colour, two-dimensional graphics and three-dimensional forms
- **Personal, Social & Humanities Education** self-development, the impact of technology in social and cultural development

## 8. Learning and Teaching

In this course, student-centred learning and teaching activities are designed to enable students to understand fundamental theories and concepts, develop their generic skills, and address their career aspirations in brand communication and digital content production.

Different modes of activities are employed to provide students with a systematic understanding about the context (e.g. case studies to recognise the purposes of brand communication in local and global contexts, digital media production projects to understand the trends in the branding and promotion sectors) and eye-opening opportunities to experience the complexity of the context (e.g. sharing by practitioners and visits to branding agencies or digital promotion departments of companies to enhance understanding of the workplace requirements).

Students acquire an understanding of the requirements, fundamental knowledge and skills essential for further learning within the area through learning-by-practising opportunities in an authentic or near-authentic environment (e.g. hands-on exercises to understand reasons for brand communication, practise writing and recording digital contents skills and apply pitching and presentation techniques to explain the activities and content of their digital brand communication projects to stakeholders).

Students are also encouraged to develop and apply conceptual, practical and reflective skills to demonstrate entrepreneurship and innovation. Students are given opportunities to integrate the knowledge and skills acquired and consolidate their learning (e.g. design, organise and execute a digital brand communication project providing students with opportunities to consolidate knowledge and skills of brand communication and the related industry).

## 9. Curriculum Pillars of Applied Learning

Through related contexts, students have different learning opportunities, for example:

## (i) <u>Career-related Competencies</u>

- identify different types of brand communication and interpret the relationship between brand communication and digital media production;
- apply professional written and visual communication skills to communicate with target audience effectively;
- recognise the importance of professional ethics of digital brand communication;
- integrate the knowledge and skills of brand communication to organise and conduct promotion activities for brands by using appropriate digital media platforms;
- apply pitching skills to present ideas of promotion plan to stakeholders; and
- interpret the trends in brand communication, analyse communication strategies and comprehend digital media production skills through case studies.

# (ii) Foundation Skills

- apply written, oral and visual communication skills through writing promotion scripts, presenting and executing brand promotion activities;
- apply information technology skills by using digital media and computer software effectively in brand promotion activities; and
- collect and select relevant information and data for effective brand communication.

## (iii) Thinking Skills

- compare the characteristics of different digital media platforms and choose the appropriate platforms for brand communication;
- analyse the audience profile of digital media and evaluate the effectiveness of digital communication strategies used in brand promotion activities; and
- evaluate the pros and cons of using digital media in brand communication.

#### (iv) People Skills

- develop self-management skills by organising digital brand promotion activities with achievable goals and realistic work schedule;
- apply appropriate communication strategies to deliver information about a brand to target audience;
- recognise and respect different views and handle conflicts in group projects; and
- develop interpersonal skills and team spirit through collaboration with team members in digital brand communication projects.

### (v) Values and Attitudes

- recognise the significance of digital media communication in contemporary society;
- demonstrate a basic understanding of professional ethics and legal requirements of communication industries:
- develop positive dispositions for communication professions and explore the use of digital media for constructive purposes; and
- develop self-understanding for further studies and career development in professional brand communication.
